Utility Contractors  
Association

# Editors Message

*Utility Contractor* is the official magazine of the National Utility Contractors Association (NUCA), the largest trade association working solely for the excavation and underground utility construction industry. In serving the association members, *Utility Contractor* covers

the issues and trends related to contractors, suppliers and manufacturers involved in water, sewer, gas, electric, telecommunications, site work and other segments of the industry across the United States.

Importantly, each issue promotes safe working practices and recaps the happenings on Capitol Hill that affect utility construction professionals. Member company news, jobsite stories, and updates on technology and equipment innovations also fill the pages of *Utility Contractor*. If it is important to the contractor, we have it covered.

*Utility Contractor* reaches beyond the bounds of the print magazine and engages its audience through the website and social media, as well as through webinars and e-newsletters. In the office or in the field, on your computer or on your hand-held, we have you covered.

*Utility Contractor* is involved with NUCA and engages its members at events across the country. We have been partnered with NUCA for more than a decade and look forward to working with NUCA members who build America in 2018 and beyond!
