

# SOLAR BUSINESS BOOT CAMP

April 24-25, 2018  
Philadelphia, PA

Over the course of two days, solar installers and contractors will be treated to in-depth panel presentations on the following solar business topics:

Solar projects are often installed by small businesses – some that just entered the market recently, maybe as an add-on service to their roofing or HVAC business – which means they could use expert advice on how to grow and perfect their approach. Our Solar Business Bootcamp is going to provide that.

- Lowering customer acquisition costs
- Software strategies
- Customer service tips
- Diversification into energy storage
- Scaling up to larger projects
- And more!

## Tabletop Exhibit Space and Sponsorships Available!
