Raising Skin Cancer Awareness In The Construction Industry

If you work in construction, chances are you spend a lot of time outside. And if you are doing so without sun protection, melanoma cancer can be a very real consequence of spending all those hours and days under the blazing and dangerous sun. Let me tell you — from someone who knows firsthand — melanoma cancer is something you want to avoid at all costs.

Editor At Large: Taking The Wheel At Dozer Day

Kids and construction. The love affair begins as soon as little ones are just tall enough to peek out the car window and see a mighty excavator along the highway. The machines are so big, dirty and loud — just up a youngster's alley.

Polaris Ranger Utility Vehicle Supports Seaside Fire and Rescue

The City of Seaside, Oregon, has historically been well-served thanks to its department's location just 80 miles from Portland. Seaside Fire & Rescue serves the city of Seaside, the surrounding rural fire protection district and provides mutual aid for Clatsop, Cannon Beach, and Clatsop County departments. Since the department was created in 1958, it has remained an active, multi-agency department.

This brand of vehicle can be challenging in the fire and rescue situations and requires the maintenance of the most comprehensive training and equipment.

Prineth Announces Arco Equipment as New Dealer for Louisiana

Prineth recently announced that Arco Equipment, located in Lafayette, LA, has joined the Prineth team as dealer for the state of Louisiana. They will represent Prineth for the entire Partner Group as well as the "Prineth" brand line of equipment in 2018 in Louisiana. This, where a leading engineering and manufacturing firm offered support for the oil and gas industry.
